| | SO 1 | Viability of Soci | ial Security Ins | titution | Sustained | | | | | | | |
| FINANCIAL | SM 1 | Amount of Contribution Collections | Total Contribution collection = Contribution collection [Employed + Self- employed + Voluntary paying members + OFWs)] | 10% | Actual / Target x Weight | 142.7 Billion | 144.36 Billion | 10% | 144.36 Billion | 10% | Statement of profit or loss and other comprehensive income COA 2016 Annual Audit Report | For 2016, SSS was able to collect P144,364,882,509 from its members based on the submitted Statement of profit or loss and other comprehensive income, and validated from the 2016 COA Annual Audit Report. The amount is 8.86% higher than the 2015 figure. The improvement can be attributed to implementation of programs that were geared towards improving compliance of members and employers, including the filing of cases and collections from delinquent employers. |

S S S | 2 of 16 Validated Performance Scorecard 2016 (Annex A)

| SM 2 | Net Revenue | Net Revenue = Revenues - Expenditures | 10% | Actual / Target x Weight | 41.5 Billion | Without '85- '89 adjustments: 42.54 Billion With '85-'89 adjustments: 32.00 Billion | 10% | Net Revenue: 32.00 Billion Pension adjustments for the 1985- 1989 contributions: 10.54 Billion Total: 42.54 Billion | 10% | Statement of profit or loss and other comprehensive income COA 2016 Annual Audit Report | SSS posted a net revenue of P32,004,973,411, 21.35% lower than the amount registered last year as total expenditures grew more than twice as much as the increase in total revenues. The increase in expenditures is fueled by an 18.14% increase in the benefit payments, which include the effect of the P10.54 Billion pension adjustments arising from the unlumping of 1985 to 1989 contributions. The project on the 1985 to 1989 contributions. The project on the 1985 to 1989 contribution was implemented to breakdown the lumped contributions and credited years of service to arrive at the correct computation of pension benefit. The policies on the 1985-1989 contribution posting and computation of pension benefit adjustment was approved under SSC Resolution No. 291 dated May 4, 2016 and further amended by SSC Resolution No. 394 dated June 22, 2016. Since the 2016 target does not consider the effect of adjustments from 1985-1989 contributions, adding back the P10.54 Billion to the net revenue would result to an adjusted 2016 net revenue of 42.54 Billion, as validated from the COA Annual Audit Report. |

This was relayed to the GCG by SSS thru a letter request for deletion of the ARTA measure and target last 9 January 2017. Given that the sudden change in the survey implementation of CSC is beyond the control of SSS, the request is granted. The corresponding weight of the measure will be removed from the total computation. |
| SM 6 | Improve Net Satisfaction Rating | [NSR 1 + NSR 2 ++ NSR 11] / 11 | 5% | - | Establish Baseline (Satisfactory) | Baseline Established (High Satisfaction, 93%) | 5% | Overall satisfaction score of 93% (combined employers and individual members) | 5% | Memorandum on the results of the 2016 Customer Satisfaction Surveys from the Corporate Communication Departments Report of Nielsen's Customer Satisfaction Survey to SSS | SSS has tapped the services of Nielsen Company (Philippines) Inc. to conduct a dedicated nationwide customer satisfaction survey of SSS members and establish a baseline rating. Based on the memorandum submitted, SSS was able to reach an overall satisfaction score of 93%, which translates to a very high satisfaction rating. Member employers had a very high average rating of 97% for the sample size of 524 employers while employee members had given the corporation an average of 89% satisfaction rating for the sample size of 3000 employee members. It was noted that the survey's satisfaction passing rate was 80%. |

It is worth noting that this just represents 2.38% of the total number of SSS branches which is 168 in 2016. However, it was not mentioned during the Performance Agreement Negotiations how many branches should the project be piloted. Possible reasons why the project was only piloted in selected large branches because technological and connectivity requirements as the system uses touchscreens and wifi connections. Moreover, the report did not clearly state how SSS came up with an average of happy rating. Per evaluation on the number of responses, majority of the respondents have rated "Extremely Happy". Specifically, 1,427 respondents out of 2,255 or 63% were "Extremely Happy", which signifies that average is highly skewed towards the "Extremely Happy" rating. |

The office order defined the three Service Quality Fundamentals that establishes service standards on how member service representatives shall approach customers given the different scenarios and situations that goes with the daily transactions. Further, the order covers all frontline services. The accomplishment is in response to findings of the self- assessment report where Addressing the Service Fundamentals was identified as area for improvement and was rated with basic maturity level. However, there was no indication that the Business Process Model was deployed to all branches. Moreover, SSS has developed and launched a Service Quality Handbook geared towards to the SSS values as a response to the findings from the self- assessment report on the guideline of Developing the Service Culture. The handbook is on top of the target for 2016. |

The top two most popular benefits that the sample respondents were aware of are retirement/pension and loans. It is also worth to note that disability benefit was the least known on both groups. Aside from awareness level, the study also covered opinions about SSS membership and benefits for both members and non- members. Comparing with the Customer Satisfaction Survey done by Nielsen, the questions in this study are more on the general perception of the respondents with SSS, whereas the Customer Satisfaction Survey deals more on the details of services availed by the members. |

Overall, SSS accomplishment for the measure is 92.6%. According to SSS Annual Report, collection from 10,378 accounts translated to P645 million in past due contributions and accumulated penalties. Compared to the 2015 performance, the 2016 accomplishment was clearly an improvement since the number of cases referred in 2015 was only 3,939. There was a 210.74% increase in the number cases acted upon in 2016. During the onsite validation in SSS Mindanao South Legal Department, the legal office was able to provide 2016 monthly reports, which shows the number of accounts referred for issuance of demand letters / filling of cases and the corresponding accomplishment for each. |

(issued on 8 February 2017) Approved Manual of Procedures for Salary Loan Granting under the enhanced loans management system (eLMS) | As proof of accomplishment, SSS provided attestation for the certification of Death Disability and Retirement (DDR Processes done in Diliman and Camiling branches. For the second target, SSS provided a copy of their Manual of Procedure (MOP) for Salary Loans Granting under the Enhanced Loans Management System (eLMS). Upon evaluation, the accomplishment and supporting documents are not acceptable in relation to the committed target in 2016 For the ISO Certification of DDF processes, GCG made a point during the 2016 Performance Agreement Negotiations that certification covering the three processes on death, disability and retirement across SSS units and branches The provided certification is exclusive to 2 out of the 168 branches, this does no guarantee that the same standards are applied across SSS. As for the second target of Manualization of "Loans" process, it was not accepted since the submitted MOP only cover Salary Loan. Aside from salary loans, SSS also offer Housing Repairs/Improvement Loans, Educational Loan and Calamitt Loan to its members, which are expected to be included in the manual of "Loans" a represented in the scorecard. |

| SM 17 | Average Competency Level | - | 5% | - | Establish Baseline Competency Level | Competency tables for Branch Operations Sector and Medical Services Division prepared | 5% | Competency tables and matrix for Branch Operations Sector, Central Processing Group and Medical Services Division prepared | 5% | • Competency tables and matrices for Branch Operations Sector, Central Processing Group and Medical Services Division | In a letter dated 10 June 2016, SSS has requested for the revision of the target fro "Establish Baseline Competency Level" "Prepare Competency Tables for all uni under the Branch Operations Sector ar the Medical Services Division". SS justified that the commitment to establish baseline competency level was planned prior the approval of CPCS. E.O No. 20 requires the conduct of job levelling of a positions which is a prerequisite to the development of the SSS Tot Compensation Framework. Thus, priori was given to the submission of the job levelling as the same team was als assigned for the establishment competency level. Further, SSS propose to limit the units whose restructuring has already been approved by the Governanc Commission. This will update the framework developed in 2015. Given that there was a long period befor CPCS was suspended through the issuance of E.O No. 36 and the approved by SSS on 21 June 2016 ar implementation will not abrupt materialized because qualification standards for new positions shall still the approved by SSS, the request to revise the target is granted but modified to "Prepa Competency Tables and Matrices for a units under the Branch Operations Sector Central Processing Group and the Medicing the metailing the metailing the metailing the Medicing the Medicing the metailing the Branch Operations Sector Central Processing Group and the Medicing the metailing the Branch Operations Sector Central Processing Group and the Medicing the metailing the Branch Operations Sector Central Processing Group and the Medicing the proved by the Medicing the metailing the Branch operations Sector Central Processing Group and the Medicing the proved by SSC the request to revise the target is granted but modified to "Prepa Competency Tables and Matrices for a units under the Branch Operations Sector Central Processing Group and the Medicing the proved by SSC the request to revise the target is granted but modified to "Prepa Competency Tables and Matrices for a units |
